

- **Modern design**
- **Allows students to sit facing each other**
- **Rigid welded construction**
- **Rounded corners of the worktop for increased safety**
- **Low maintenance**

#### Parameters and available sizes

Size	Worktop height	Body height
3 	590 mm	119 - 142 cm
4 	640 mm	133 - 159 cm
5 	710 mm	146 - 176,5 cm
6 	760 mm	159 - 188 cm
7 	820 mm	174 - 207 cm

**Dimensions:** The overall dimensions and weight of the product vary according to size.

**Carrying capacity:** MAX. 120 KG.

**Stackability:** No

**Note:** The specified size is ( $\pm 10$  mm) according to EN 1729 - 1.

#### Detailed description

The JL60 EDU student table offers a modern and functional design suitable for educational institutions, especially specialized classrooms. Its open structure allows students to sit facing each other, thus facilitating cooperation.

The table's metal frame is welded from 40-mm-diameter steel tubes and 40x20-mm steel profiles. The entire structure is standardly treated with powder coating in a neutral shade of RAL 9006 (white aluminium). Individual legs are equipped with rectifying glides to compensate for the floor's unevenness.

The table's worktop measures 70x50 cm and is made of 18mm thick laminated chipboard with a 2mm ABS edge. It also has R80 rounded corners for increased safety.

The table is easy to maintain and easy to clean.

#### Maintenance

The metal surface and the worktop surface can be maintained with common cleaning agents, except aggressive cleaners, detergents, polishes, and products containing granules and sand. Do not expose the product to excessive moisture, running water, or temperatures above 90 °C.

#### Standard desk design

Frame material:	Steel
Frame color:	RAL 9006
Worktop dimensions:	70x50cm
Worktop material:	Laminated chipboard
Worktop finish:	Beech, white
Glides:	Without felt
