Detailed description

The versatile garment rack with an integrated benches measuring 150 × 83 × 164 cm is a practical and durable solution for changing rooms in schools, gyms, and sports facilities. It combines comfortable seating with shoe storage space and the possibility of hanging clothes.

The frame is made of solid steel profiles 30 × 30 mm and 25 × 20 mm, and it has a high-quality powder coating that can be customized according to requirements.

The seats are made of laminated chipboard 25 mm thick with a light grey finish, equipped with a durable 2 mm ABS edge.

The shoe racks are made of 16-mm-diameter steel pipe, which ensures high stability and load-bearing capacity. The upper panel (one on each side) is equipped with six hooks for easy clothes hanging.

The garment rack is delivered disassembled, including complete assembly material for easy installation.

Maintenance

Surfaces can be maintained with common cleaning agents, with the exception of aggressive cleaners, detergents, polishes, and products containing granules and sand. Do not expose the chair to excessive moisture or running water or to temperatures above 90 °C.
